PROFESSIONAL SUMMARY

- 7+ years of expertise in architecting and developing complex, feature-rich web applications
- Proficient in the latest front-end technologies and tools, including React and Vue.js, and adept at crafting elegant, responsive user interfaces
- Extensive experience in performance optimization, code maintainability, and building scalable component libraries.
- Excellent problem-solving skills, attention to detail, and ability to meet project deadlines.

EXPERIENCE

FRONT END ENGINEER

SAMSUNG RESEARCH AMERICA | 11/2022-PRESENT

- Spearheaded the adoption of modern front-end technologies, resulting in a 20% increase in application performance.
- Collaborated with UX/UI designers to ensure a seamless user experience and implemented responsive design principles.
- Developed and maintained a component library, enhancing code reusability and consistency across projects.
- Implemented responsive web design and ensured cross-browser compatibility, resulting in a 25% improvement in user engagement.
- Optimized web applications for speed and performance, resulting in a 30% decrease in page load times.
- Conducted code reviews and provided constructive feedback to team members, ensuring coding standards and best practices.

SKILLS

Front-End Technologies:

- HTML5, CSS3, JavaScript (ES6+)
- React, Angular, Vue.js
- Redux, Vuex
- Webpack, Gulp, Grunt
- Git/GitHub
- Jest, Enzyme

Design and Performance:

- Responsive Design and CSS Preprocessors (SASS/SCSS, LESS)
- Web Performance Audits
- Lazy Loading and Code Splitting
- Cross-Browser Compatibility
- Web Accessibility (WCAG) Standards
- RESTful API Integration and AJAX

UX/UI

- User Research
- Wireframing and Prototyping
- Interaction Design
- Usability Testing
- User Persona Creation
- Design Thinking
- User Flows
- Visual Design Principles

Soft Skills:

- Agile/Scrum Methodology
- Strong Problem-Solving and Debugging Skills
- Technical Leadership and Mentorship

UX FRONT END ENGINEER

ISKME | 07/2021–11/2022

‣ Lead frontend features on a number of company's microsites:
- Evaluated the base code and developed new reusable templates that resulted in a 40% performance increase
- Developed a macrosite project that combines customer databases to enable data exchange
- Initiated and maintained documentation for coding standards and best practices.

‣ Websites Accessibility Project:
- Audited all clients (23 microsites) and prepared UI Kits to meet accessibility requirements

‣ UX Design:
- Conducted user research, including surveys, interviews, and usability testing, to gain insights and identify pain points in the user journey.
- Developed user personas, user flows, and wireframes to create efficient and user-friendly interfaces.
- Created interactive prototypes to visualize and test design concepts, incorporating user feedback.
- Delivered design solutions that led to a 25% increase in user engagement.

FRONT END DEVELOPER

HTML Academy | 5/2019–6/2021

‣ Created pixel-perfect, responsive designs based on provided mockups and wireframes.
‣ Collaborated closely with UX designers to implement user-friendly interfaces and enhance user experiences.
‣ Maintained and improved existing web applications, addressing bugs and adding new features.
‣ Ensured cross-browser compatibility and accessibility compliance, enhancing the user reach.
‣ Contributed to the development of reusable components and libraries for more efficient coding.
‣ Mentored junior designers and contributed to their professional growth and development.

FRONT END DEVELOPER / UX DESIGNER

freelance.com | 9/2016–5/2019

‣ Developed pixel-perfect, responsive designs based on provided mockups and wireframes.
‣ Successfully met project deadlines and budgets, leading to high client retention.
‣ Designed and maintained design systems to ensure consistency and scalability across multiple products.
